

## **Saitama City Citizens' Charter**

Nestled alongside the magnificent flow of the Arakawa River and the bountiful Minuma-Tambo extending across the verdant Musashino area, Saitama City has grown as a bustling road and rail hub. Our forebears gathered here, learned, wished, developed a distinctive local culture brimming with beauty and charm, and cultivated an environment where education and sports thrive. Taking pride in our city and spending time here together, we, the citizens of Saitama City, have established this Charter that serves as a dependable guidepost pointing the way to the future of our city, in the hope of building a society where everyone can lead the lives they desire.

We will:

- Carry on the history and traditions of our city, foster and enrich them, and pass them on to future generations.
- Cherish our children together, in the belief that small lives have big futures.
- Cultivate ourselves continually by learning, honing our communication skills, and aspiring to new challenges.
- Make difference a strength by living hand-in-hand with profound consideration for others and broad understanding.
- Create a beautiful city where we commune with the sky, water, greenery, flowers, and Satoyama.

Established on July 1, 2021 to commemorate the 20th anniversary of the city's incorporation.
